

Change of Surname

- Captains must use a player's surname, (and first name), exactly as it appears on the player's personal LTA account when filling in the match card and uploading the result.
- Both the home and away captains must fill in the physical match card with the surname of their players as it appears on the player's personal LTA account so that the home team captain can upload the result correctly.
- If any players want to change their name on their personal LTA account they must do so before the season starts. To do this they must log on to their personal account and edit any appropriate personal information.
- **IMPORTANT! Players MUST NOT set up a brand-new account: they must edit their existing one.**
- Please also note that the relevant Staffs League Divisional Secretaries cannot do this action it must be done by the individual!
