

Check a Match Result

- There is no formal facility to confirm a match result for an away captain.
- Within **5 (five) days** of the match date, the home captain should aim to enter and save a result, and also inform the away captain that the results are ready to be checked. This will leave 5 days for any unknown player status to be resolved.
- Within 48 hours of the result being uploaded by the home captain, the away captain should check the result and, if they want to, confirm with the home captain that they are satisfied with it. After 48 hours, if there has been no response from the away captain, agreement will be assumed.
- If there are any issues with player names or the result, either captain should inform the relevant Staffs League Divisional Secretary or their Club League Administrator. However, it is the home captain's responsibility to ensure the away captain is satisfied.
- If either captain sees a mistake or inaccurate details, this must be raised with the relevant Staffs League Divisional Secretary as soon as possible.
- Within 10 days of the match date, any unknown players must be resolved (i.e. registered with an LTA account and affiliated to the correct club) and the relevant Staffs League Divisional Secretary must be informed.
- Please see [How to resolve an unknown player](#).

Have we reached a decision on the 10 days matter? i.e.

- 10 days to enter card plus 5 days to resolve unknown players, or
- 10 days to enter fully completed match card with all unknown players resolved.
