

Enter a Match Result

- Login via <https://competitions.lta.org.uk> using your own personal LTA Advantage username and password (top right-hand corner and then LTA member login). If you have forgotten your Username and/or Password, please follow the relevant links. **You MUST NOT create a new account.** This causes all sorts of issues for you and the Staffs League.
- You will now see the Home page of your account. From the menu on the left, see 'Enter Results'. Click on the League name underneath to proceed.
- See 'Upcoming matches' to see your club's matches.
- To input a match result, select the right-hand side green box with the pencil symbol.
- From here, you can enter scores.
- Use the dropdown menu to select or add each player for each team.
- Enter the scores – input the losing sets first and then the winning sets (6, or 7 if a tie-break) will automatically appear.
- Click 'Save'. (Once saved you cannot edit the result – this can only be done by a Staffs League Divisional Secretary).
- The saved match can be found on your club dashboard under Results.
- Please see [How to resolve an unknown player](#) and our other [Help Topic](#) articles if you have any problems, before contacting the relevant Staffs League Divisional Secretary.
